About Us

Verna Vélin uses cutting edge printing technology to create embossed wall coverings with details and surfaces that are unmatched, inspiring high end residential and commercial designers to bring old world textures to their creations. With our signature full circle customer experience, bespoke and standard designs are fully supported by our experts from concept to delivery.

This innovative technology is a game-changer in the world of digital printing! With the ability to print unique embossing patterns simultaneously with the item's digital image, the possibilities for design creativity are endless. Whether you want to match the texture and pattern perfectly or create a contrasting effect with a completely different structure, this technology makes it all possible. And the best part? The embossing can be printed at any size, without the need to repeat the pattern, resulting in a truly one-of-a-kind look that is sure to impress. Say goodbye to boring, flat images and hello to a new era of dimensional, textured designs with this pioneering printing technology!

Materials

PEARLESCENT MEDIA

Pearlescent wall covering has a lustrous, iridescent sheen that gives it a glamorous and luxurious appearance. Its surface shimmers and reflects light, creating a soft and elegant look that adds depth to any room.

MATTE MEDIA

Matte wall covering has a smooth and non-reflective surface, creating a subtle and understated look for your walls. It is often used to create a minimalist or contemporary feel to a room.

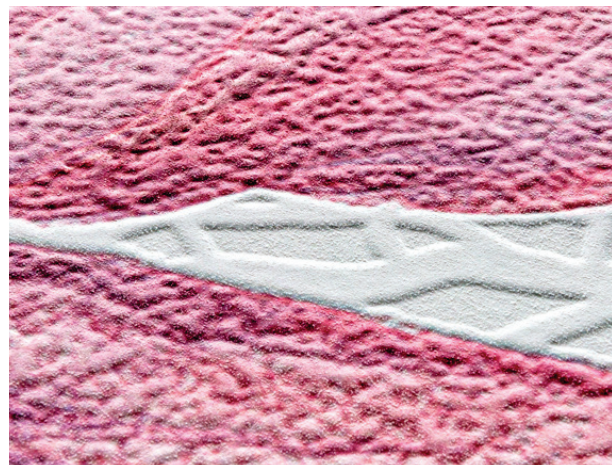

SILVER MEDIA

Silver wall covering has a metallic silver finish that adds a touch of glamour and sophistication to any space. It reflects light beautifully, creating a bright and vibrant look that can make a small room feel more spacious.

GOLD MEDIA

Gold wall covering has a rich, warm glow that creates a luxurious and opulent atmosphere. Its shiny, metallic finish adds a touch of elegance to any room and is often used in traditional or classic interiors.

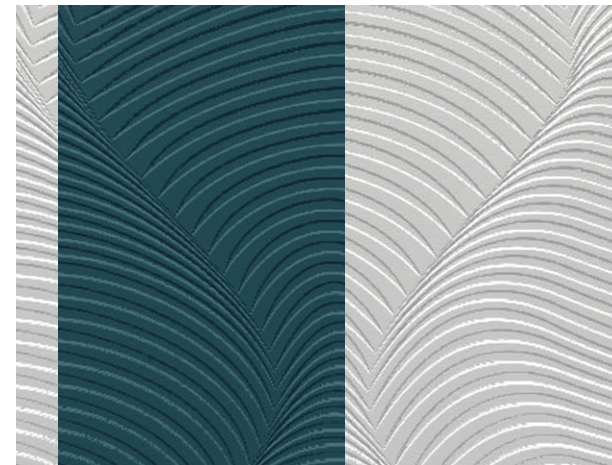

SUEDE MEDIA

Suede wall covering has a velvety, textured surface that mimics the look and feel of suede fabric. It's soft and tactile appearance creates a warm and cozy atmosphere, making it a popular choice for bedrooms and living rooms.

CHAMELEON MEDIA

Chameleon wall covering changes color depending on the angle and direction of light, creating a unique and dynamic visual effect. It can add a playful and quirky element to a room, making it a great choice for children's bedrooms or playrooms.

PAINTABLE MEDIA

Paintable wall covering is a textured wall covering that can be painted over with any color of your choice. Its subtle and understated appearance makes it a versatile choice for any room, and it allows you to customize the look of your walls to suit your personal style.

Beauty that Endures

Our embossed wallpaper entices the senses and delights through form and function. Whether installed in residential, hospitality, commercial, multi-family, or healthcare projects you can rely on Verna Vélin's durability, light fastness, Class-A fire resistance (according to ASTM E84), and washable properties.

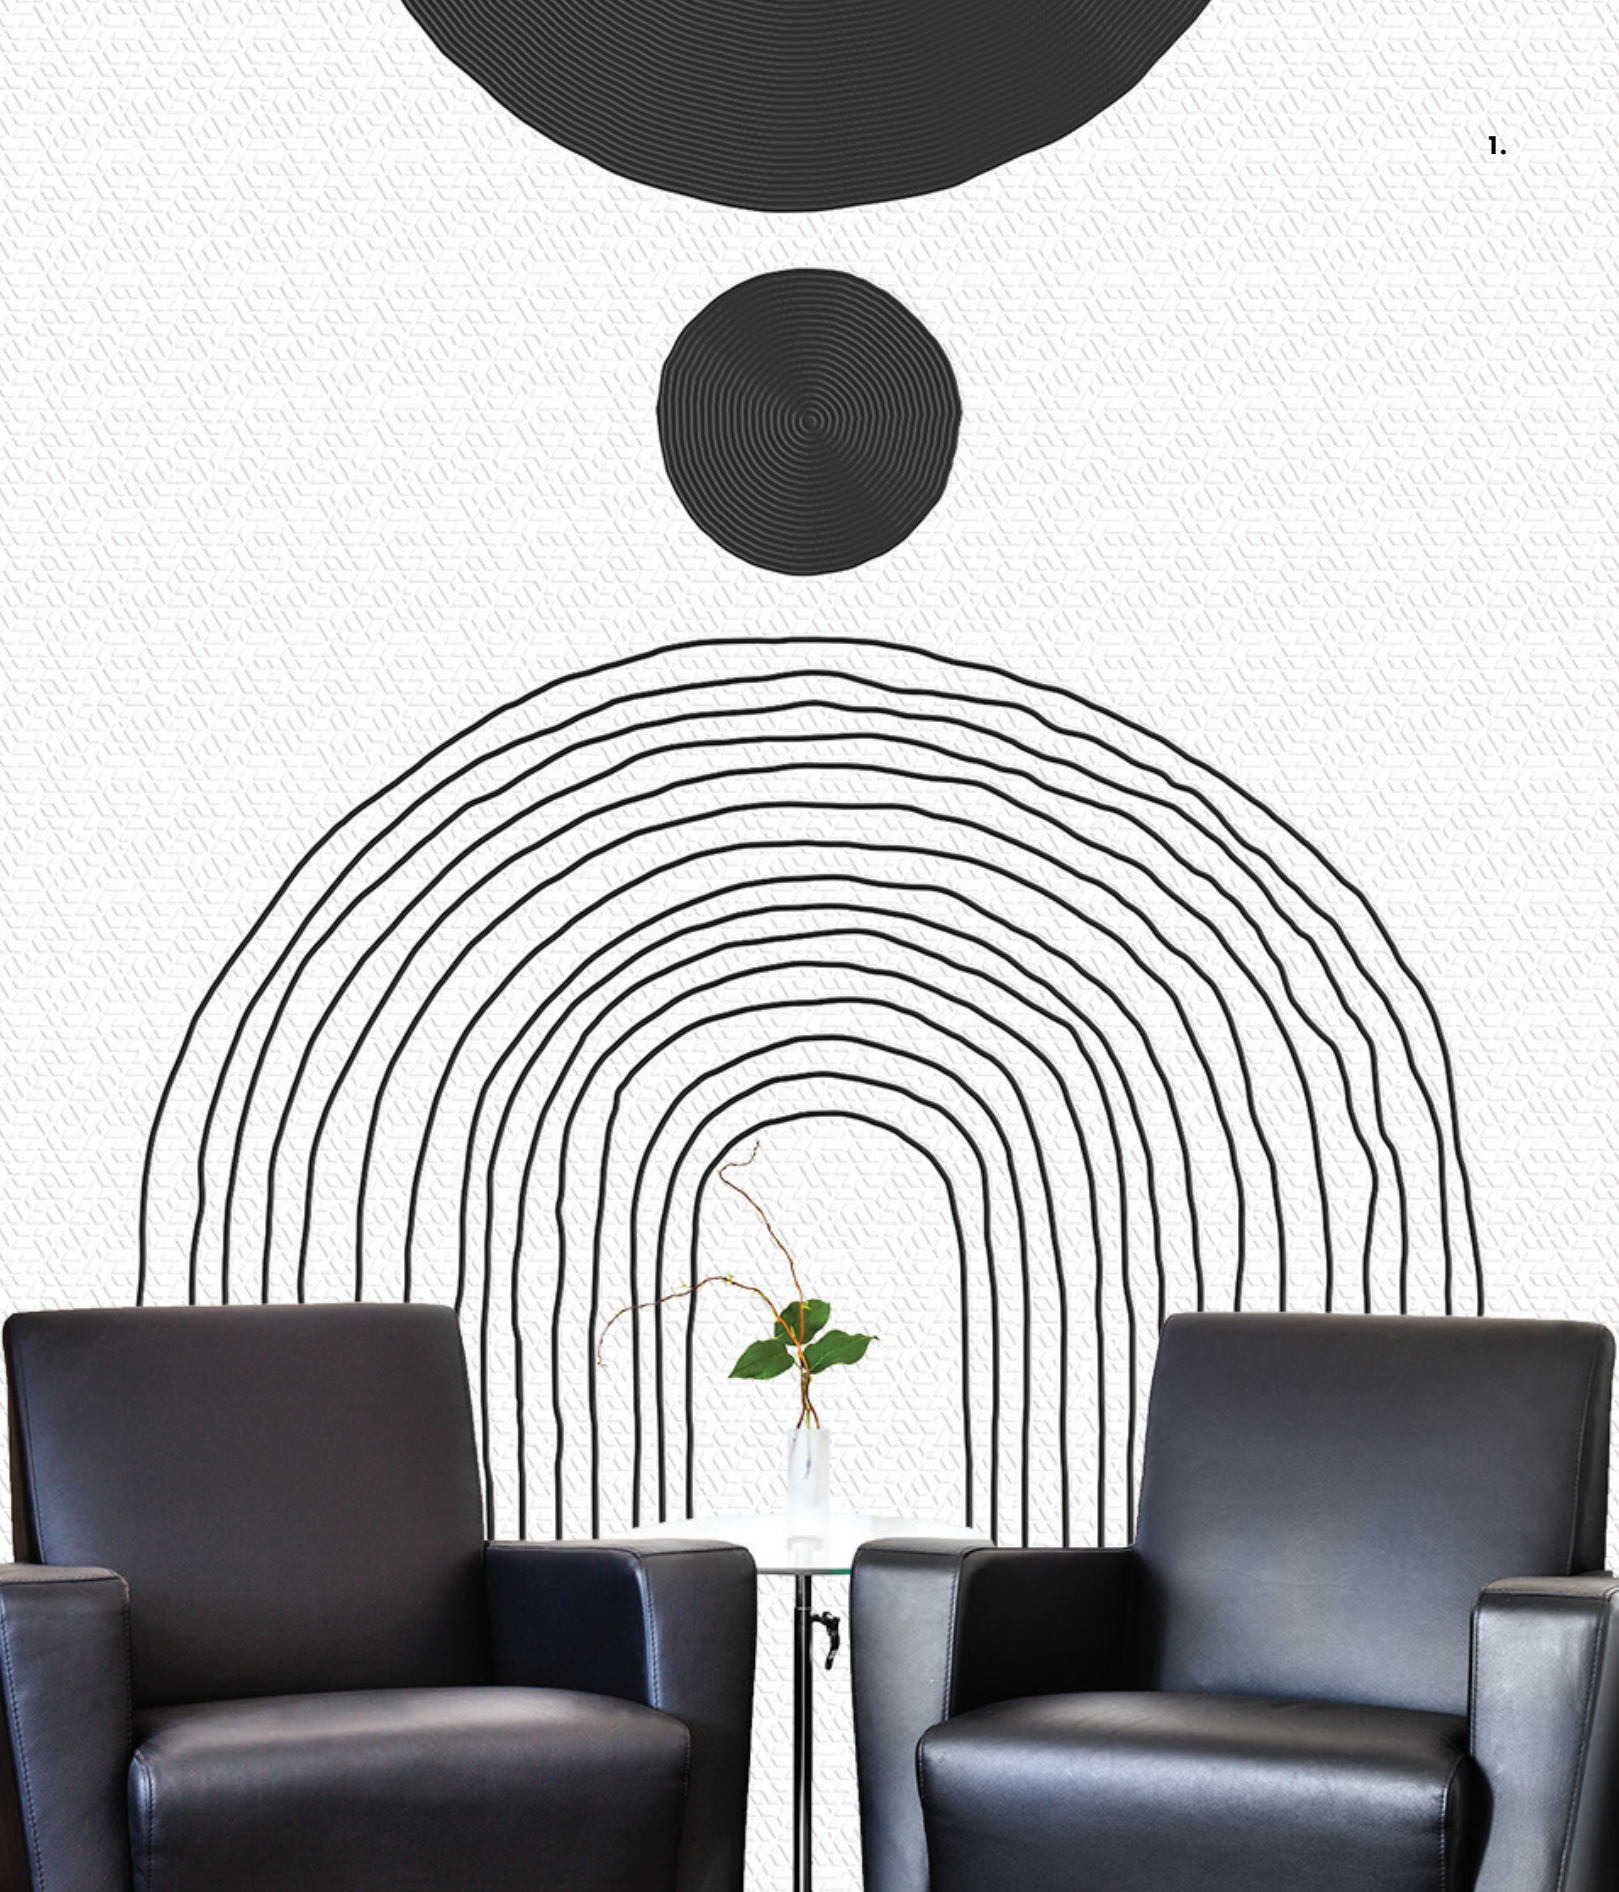

Midas & Gaia COLLECTION

Enjoy biophilic designs with a touch of gold that brings the outdoors inside with our Midas & Gaia collection. Your walls are your auric oasis. When designing this collection, we took inspiration from king Midas, known for turning everything he touches to gold, and Gaia, the Greek goddess of the Earth. This collection is the perfect blend of luxury and natural beauty. Choose from luxurious woodland and floral designs with golden accents. These patterns are scalable, repeatable, and even gold printable.

Replicas

Digital copies of original paintings have become popular for interior decoration, and designers strive to produce high-quality prints that closely resemble the originals while also being affordable and easy to produce. Verna Vélin can recreate the brush strokes and surface structures to convey the artist's intended image accurately. This technique allows for highly detailed replicas that closely resemble the original artwork.
