

verna vélin Wallcovering Care Sheet

Product Name: Verna Vélin Embossed Wallcovering

Thank you for choosing Verna Vélin wallcoverings! Proper care and maintenance will ensure that your wallcovering remains beautiful for years to come.

Cleaning Instructions

To keep your wallcovering looking its best, please follow these simple care instructions:

1. Routine Cleaning

- **Frequency:** Regularly dust your embossed wallcovering with a soft, dry cloth or a duster to remove any surface dust or debris.

2. Spot Cleaning

- **Materials Needed:**

- Soft cloth or sponge
- Warm water
- Mild soap (such as dish soap)

- **Steps:**

1. **Prepare the Cleaning Solution:** Mix a small amount of mild soap with warm water in a bowl or bucket.
2. **Dampen the Cloth:** Dip a soft cloth or sponge into the soapy water. Wring out excess water to ensure the cloth is damp, not wet.
3. **Gently Wipe:** Lightly wipe the soiled area of the wallcovering with the damp cloth. Do not rub too hard, as this may damage the surface.
4. **Rinse:** Rinse the cloth in clean, warm water, wring it out, and gently wipe the area again to remove any soap residue.
5. **Dry:** Pat the area dry with a clean, soft cloth.

3. Stain Removal

- **For Tougher Stains:** If a stain persists after following the spot-cleaning instructions, repeat the process as needed. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these may damage the wallcovering.

Important Tips

- **Test First:** Before cleaning, test your cleaning solution on a small, inconspicuous area to ensure it does not damage the wallcovering.
- **Avoid Excessive Moisture:** Never soak the wallcovering with water. Excess moisture can seep behind the wall covering and cause damage to both the wall and the covering itself.
- **Do Not Scrub:** Avoid scrubbing or using abrasive materials, as this can damage the texture and finish of the wallcovering.
